SUMMARY

Full-stack software engineer with 2+ years of experience building production web and mobile applications. Hands-on with Flutter and Dart since 2023, and React, TypeScript, Node.js, Express, MongoDB, FastAPI and Python in production since 2025. At a software agency in Lahore, I build mobile apps, web interfaces, APIs, payment flows and AI features. I learn new tools quickly and use AI coding agents to explore code, draft changes, and assist with tests and debugging, then review and verify the work before integration.

EXPERIENCE

Software engineer, Flutter and full-stack | Software agency Aug 2025 - Present
Lahore, Pakistan

Started with Flutter apps and Strapi backends for fitness, nutrition, e-commerce and wellness products. Since December 2025 I've worked mainly on a Swiss field-service marketplace, contributing to its React and TypeScript web app, FastAPI and PostgreSQL backend, payments, passwordless sign-in, AI assistant and technical SEO. Since September 2026 I've also done frontend, SEO and performance work on travel and property marketplaces. I learn new tools quickly and use AI coding agents to explore code, draft changes, and assist with tests and debugging, then review and verify the work before integration.

Final year and independent projects | University of Gujrat May 2024 - Jul 2025
Gujrat, Pakistan

Finished my BS in Computer Science with a Unity final-year project, and published a Flutter app on Google Play.

Flutter developer intern | Business Incubation Center, University of Gujrat Nov 2023 - Apr 2024
Gujrat, Pakistan

Six-month internship building a real-time blood-donor app with Firebase.

SELECTED PROJECTS

MindMemo: An AI assistant that runs its models on the phone and remembers you between chats. Web search is optional.

Health Tracker: Flutter fitness app for workouts, plans, mood, hydration and weight, with 15 unit and widget tests.

Dialogflow chatbot: Chat app that answers users through a Dialogflow agent.

SKILLS

Web	React + TypeScript · Vite, Tailwind CSS · Technical SEO (pre-rendering, JSON-LD, hreflang) · End-to-end tests (Playwright)
Backend	FastAPI, SQLAlchemy, Alembic · Celery background jobs · Strapi (headless CMS) · Passkeys / WebAuthn
Mobile	Flutter + Dart · Provider, BLoC · Firebase (Auth, Realtime DB, FCM) · Google Maps, Places, geolocation
Payments	Stripe (PaymentSheet, subscriptions) · TWINT and tap-to-pay flows
AI	On-device LLMs (llama.cpp) · AI assistant integration · Dialogflow

Data & quality PostgreSQL, SQLite · GitHub Actions CI

EDUCATION

BS Computer Science, University of Gujrat, Pakistan (Nov 2021 - May 2025)

CERTIFICATIONS

Introduction to Cloud Computing (IBM, 2025) · Introduction to DevOps (IBM, 2025) · Introduction to Agile Development and Scrum (IBM, 2025) · Python for Data Science, AI and Development (IBM, 2024) · Fundamentals of Unity Android Game Development (Packt, 2025)
